MARQUE M E D I C A L

Marque Medical offers a range of occupational health services to support employers in maintaining a healthy and safe workplace, while reducing the overall cost of health care.

THE MARQUE ADVANTAGE

A large staff of occupational medicine physicians and specialists, physical therapists, and skilled medical assistants

Detailed case reviews by the Director of Occupational Medicine for quality standards and reduction of employee downtime

Administration of Physical Ability Testing (PAT) which is designed to screen employees for physical job functions in order to reduce potential workplace injuries

Dedicated account managers, referral coordinators, and internal billing staff to ensure seamless case management

On-site, high-tech lab services and X-ray with same day results

A focus on case compression so that most cases can be resolved in 30 days or less

We don't overutilize medical services or supplies

Up to the minute wait times, online check-in, and downloadable forms

Participation with most major Medical Provider Networks and private health insurance plans

We can help design and customize company-specific injury protocols and work restrictions with a focus on getting employees back to full duty as soon as possible
